CIRCULAR.

It has been brought to the notice of Government that there has been a good deal of laxity among the officers of the Land Revenue Department in the matter of eviction of encroachments on poramboke lands. Government are seriously concerned to find that in some cases the orders of eviction passed so far back as 25 years ago have not been given effect to up to date. It is also noticed that considerable misapprehension exists in the minds of the officers of the Land Revenue and P. W. Departments about the fundamental principles underlying the grant of leases on Kuthagapattom of such encroachments, especially of tank, canal, river and road porambokes in the State, to the occupants or owners of lands adjoining such porambokes for various reasons. With a view to clarifying the policy of Government in such matters and to remove misconceptions regarding the scope of the rules on the subject both among the officers of Government and the public, Government wish to emphasise that, while it is the function of the Land Revenue Department to prevent encroachments, detect them promptly when they occur and deal with them firmly under the Rules, eviction should be the rule and not the exception. As Kuthagapattom leases of such encroachments are a direct incitement to trespass, Government consider that no such proposal for lease even temporarily should be entertained except for very cogent and special reasons.

CIRCULAR.

The attention of all Heads of Departments and Offices is invited to Government Circular D. Dis. No. 31/41/Rev., dated the 11th January 1941, regarding the treatment to be accorded to encroachments on Government lands. Government wish to make it clear that there should be no compunction with regard to encroachments deliberately effected. No plea of length of time for which such encroachers were in occupation or of the absence of any public use of the lands encroached upon or of the absence of objection by the departments concerned could be accepted for the grant of any concession to the unauthorised occupants. Government expect that this policy of theirs would be clearly understood and acted upon in regard to the treatment of encroachments.
